📍 Faculty of pharmacy eastern Mediterranean university famagusta mersin 10 turkey, 99450 famagusta

Education

Doctor of pharmacy Oct 2015 - Feb 2021

Eastern Meditrenean University, famagusta

As a PharmD graduate, I possess a strong foundation in pharmaceutical sciences and patient-centered care. With practical experience in hospital, community, and clinical settings, I am skilled in medication counseling, drug information retrieval, and optimizing pharmacotherapy. Committed to staying updated with advancements in pharmaceutical research, I am dedicated to providing high-quality care, contributing to patient well-being, and advancing healthcare as a competent and compassionate PharmD professional.

phD pharmacology Feb 2023 - Present

Anadolu University, eskisehir

As a Pharmacology PhD student specializing in pain and neurosciences, I am immersed in cutting-edge research that explores the intricate mechanisms of pain perception and the neurobiology behind it. With a focus on understanding pain pathways and developing novel therapeutic interventions, I am dedicated to advancing knowledge in this field to contribute to the development of effective treatments for chronic pain conditions.

High school diploma Sep 2009 - Jul 2013

national organization for talented student, tabriz iran

Employment

Senior lecturer in pharmaceuticals laboratory Oct 2021 - Present

Eastern Mediterranean university faculty of pharmacy, famagusta

As a lecturer in the Pharmaceutics Laboratory, I bring extensive expertise in guiding students through hands-on experiences and experiments, providing them with practical knowledge and skills in drug formulation and delivery systems. With a strong background in pharmaceuticals and a commitment to fostering an engaging and interactive learning environment, I am dedicated to equipping students with the necessary tools to excel in the field of pharmaceutical sciences.

Lecturer in pharmacology May 2021 - Present

University of City Island Faculty of Dentistry, famagusta

Passionate about the intersection of pharmacology and dentistry, I am a dynamic and engaging lecturer specializing in pharmacology

within the Dentistry Faculty. With a deep understanding of dental pharmacotherapeutics and its impact on oral health, I empower future dental professionals with comprehensive knowledge, equipping them to make informed decisions in patient care while ensuring optimal drug therapy outcomes. Join me in exploring the fascinating world where dentistry and pharmacology converge

pharmaceutics internship

Jul 2017 – Oct 2017

Dana pharmaceuticals, tabriz iran

During my internship at Dana Pharmaceuticals in the Quality Control department, I gained invaluable hands-on experience in the field of pharmaceuticals. Working closely with a team of experts, I actively contributed to ensuring the highest standards of quality and compliance in drug manufacturing processes. Through conducting various tests, analyzing samples, and participating in quality assurance procedures, I developed a solid understanding of the essential role of quality control in delivering safe and effective medications to patients.

clinical pharmacy internship

Oct 2020 – Mar 2021

famagusta state hospital, famagusta

As a pharmacist intern in the surgical ward of a hospital, my role was to assess deep vein thromboembolism (DVT) prevention for patient safety. Collaborating closely with the surgical team, I assess individual patients' risk factors and devise tailored prevention strategies, such as pharmacological thromboprophylaxis and mechanical interventions. Through comprehensive medication reviews, patient education, and close monitoring, I ensure appropriate medication selection, dosing, and adherence to protocols, thereby minimizing the risk of DVT and optimizing patient outcomes in the perioperative period

pharmacy internship

Jul 2018 – Sep 2018

Valiasr hospital, tabriz iran

background in pharmaceuticals, coupled with hands-on laboratory experience, allows me to provide comprehensive education and excel in experimental procedures. Additionally, my diverse roles in the pharmaceutical industry, hospitals, and community pharmacies, along with exceptional managerial abilities and strong interpersonal skills, contribute to a collaborative and positive learning environment.

Certificates

Experimental Animal Use Certificate Nov 2022

The Experimental Animal Use Certificate is an official authorization granted to individuals and institutions engaged in animal research, confirming their compliance with ethical standards and regulatory guidelines. With this certification, I am recognized as having the necessary training and expertise to conduct animal experiments responsibly. Specifically, I am proficient in independently performing the **chronic constriction injury model**, as well as the **von Frey and thermal methods** for assessing pain sensitivity in animals.
